

## Didaktik-Forum on 1-2 July 2021 (2<sup>nd</sup> online edition):

### Experiences, good practices and new ideas to share: Motivating & Teaching diverse study groups – ONLINE?!

ABSTRACT

#### **Mixed Media Methods: Teaching Digital Media in Times of a Pandemic**

Prof. Alexander Peterhänsel, Brandenburg University of Applied Sciences

My presentation will present a review of learnings after 1,5 years of involuntary online-teaching. Apart from general considerations regarding different didactic approaches to teaching digital media in online format, the talk will entail a problem discussion in regards to effective methods for translating creative learning processes into virtual presence formats. As a roundup I will give short case studies from selected seminars like Generative Design, Design Computation or Sound Design.
